- HAZARD -

If the blower fails to run and the heater continues to cycle on and off for a prolonged time, a fire may occur.

If you think you have one of these heaters,

**IMMEDIATELY TURN OFF THE THERMOSTAT AND
CIRCUIT BREAKER (OR REMOVE FUSE)**

**To learn how to determine whether your heater is affected,
visit the website at www.berkomep.com/ts.htm**

or

**call (800) 642-4328 toll-free
between 8:00 a.m. and 4:30 p.m. EDST Monday - Friday**

Marley Engineered Products is offering a \$25 rebate for disconnecting these old heaters or a discount towards the purchase of a new heater plus an allowance for labor.
